KEEPING THE TEETH CLEAN.

Microscopic examinations have been made of the matter deposited on the teeth and gums of more than forty individuals, selected from all classes of society, in every variety of bodily condition, and in nearly every case animal and vegetable parasites in great numbers have been discovered. Of the animal parasites there were three or four species, and of the vegetable one or two. In fact, the only persons whose mouths were found to be completely free from them, cleansed their teeth four times daily, using soap. One or two of these individuals also passed between the teeth telescopes more effectively. In all cases the number of the parasites was greater in proportion to the neglect of cleanliness. The effect of the application of various agents was also noticed. Tobacco juice and smoke did not injure their vitality in the least. The same was true of the chlorine tooth-wash, of pulverized bark, of soda, ammonia, and various other popular detergents. The application of soap, however, appeared to destroy them instantly. We may hence infer this is the best and most proper specific for cleansing the teeth. In all cases where it has been tried it receives unqualified commendation. It may also be proper to add that none but the purest soap, free from discoloration, should be used.

ANECDOTE OF HAYLOCK.

During his stay in England the narrator went one evening to the house of the Colonel in compliance with an invitation. Mrs. Haylock turned suddenly round to her husband and said, "By the way, my dear, where is Harry?" referring to her son, whom she had not seen during the whole afternoon. The Colonel started to his feet: "Poor fellow he is standing on London bridge, and in this cold, too. I told him to wait for me there at twelve o'clock to-day; and in the pressure of business at— I quite forgot the appointment." The father and son were to have met at twelve at noon, and it was now after seven o'clock in the evening; yet the father seemed to have no doubt that Harry would not move from his post until he appeared. The Colonel at once rose, ordered a cab to be called, and as he went forth to deliver his son from his weary watch on London bridge he turned to exhort himself to his visitor, saying, "You see, sir, that's the discipline of a soldier's family." In the course of an hour or so the Colonel returned with poor Harry, who, although he appeared somewhat affected by the cold watch, and glad to see the fire in the comfortable parlor at home, seemed to have passed through the little afternoon's experience with the greatest good humor and the feeling that all was right.

A QUESTION NOT YET ANSWERED.

On the occasion of the late marriage of the Princess Royal of England with Prince Frederick of Prussia, a conversation occurred which it has been reported for the Gatehead Observer to record for the benefit of some future Miss Strickland. Two of the younger children of her Majesty were taken to the Chapel Royal in good time, to see their eldest sister married. They found the affair rather tedious for a time; but gradually they grew more and more interested as the scene increased in animation and excitement; and doubtless they were informed by their attendant of the circumstances of the Queen's marriage in the same place. At length, when they had become thoroughly fascinated and delighted by the spectacle before them, one of them naively exclaimed, in a tone of reproach, "I wonder mamma did not bring us to see her wedding!"

INFANT'S FOOD.

WHAT A BABY COSTS A YEAR!—When it is necessary to feed infants artificially, and cows' milk is used, it should be first boiled, then skimmed, then sweetened a little with sugar, and not a little salt added, not enough to give it a salubrious taste; milk thus prepared will only prevent the indigestion, and consequent acidity, flatulence, colic, diarrhoea, &c., from which sucking children suffer so much, but will actually cure them.

A hearty infant will swallow, during the first year of its life, fourteen hundred pounds of milk, in which are twenty-one pounds of cheese, thirty pounds of butter, and one hundred and twelve pounds of sugar. At six cents a quart, with the necessary sweetening, each "dear" little creature costs, for food alone, fifty dollars for the first year.—*Hall's Journal of Health.*

Mrs. Partington has seen an article in the papers headed "Conspiracy to Murder Bill." Mrs. P. wants to know who Bill is. She always understood the conspiracy was to murder Nap., not Bill, and she cannot make it out at all.

HEREBY caution the public from entering the house on Union street, Alexandria, Va., kept by one Eli Pettit, a man who was driven from Charles county, Maryland, for his misconduct, which he still follows, for several complaints of robbery have been made against him recently. I had his house searched on the 9th of August last, and recovered over one hundred dollars of my money. The above can be certified to at any time.

ap 14-31. WALTER J. CARROLL.

CARD.—The following statement made by the Attorney for the Commonwealth, at my request, is the only manner I have made at this time, to the attack made upon my character, by Walter J. Carroll.

ELI PETTIT.

AT the request of Captain Eli Pettit, I have prepared the following statement:—In August last, Captain Walter J. Carroll, called on me and stated that his wife and daughter had left his house, and robbed several hundred dollars—that upon information received from Pettit, he obtained a search warrant, and recovered a large portion of this money and other articles, at the house of Pettit—and that he desired to have his wife and daughter prosecuted to the extent of the law—that they had been arrested, and his daughter committed to jail, and his wife held by Henry L. Simpson, esq., for further hearing. Upon queries made, I ascertained that the money was in fact deposited at all times, and that the facts of the case could not justify the detention of Mrs. Carroll and the daughter, upon a charge of felony. I did not understand Captain Carroll as implicating Pettit in any manner, nor did the facts so far as they came to my knowledge, tend to implicate him; on the contrary, he refused to permit the parties charged to remove from the trunk in which the money was, without the knowledge and consent of Capt. Carroll. I have shown this to Joseph Padgett, the officer who executed the facts of the case agree with mine. I would further state that I have heard of no complaints of robbery against Pettit.

ap 14-31. R. FRANCE & CO.

MARYLAND STATE LOTTERIES.—R. FRANCE & CO., MANAGERS.—CAUTION.

NOTICE.—Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them—Capital prizes of from \$20,000 to \$100,000 head their schemes—with tickets at one Dollar—\$100,000 Capital Prizes are offered, tickets \$5. All such in every instance, are frauds, and if money is sent to them for tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of tickets. In every instance, the prizes are offered for a small cost of tickets, put down as a certain fraud.

The Kentucky State Lottery for the benefit of the Shelby College, under our management, is the only Lottery in the United States which is legally decided by the Maryland Drawings; all other Lotteries which purport to be decided by the Maryland Drawings, are frauds.

THE MARYLAND STATE LOTTERIES.

Purchase in the Maryland State Lotteries, where you are sure of being right. And in ordering in the Maryland Lotteries, you are sure of fair and honest drawings.

One thing look to, and that is, if you order from any licensed vendor in Baltimore, do not receive any but Managers' Tickets and Managers' Printed Certificates of Packages.

The Managers' Certificates have the numbers printed, and have the lithographed signature of R. France & Co.

No one but he who sends his individual certificates, and if he does it is sure there is a fraud at the bottom of it. R. FRANCE & CO., Managers of Maryland State Lotteries.

The wheels are then revolved, and a number is drawn from the wheel of Numbers, and at the same time a Prize is drawn from the other wheel. The Number and Prize drawn are opened and exhibited to the audience, and registered by the Commissioners. The Prize being placed against the number drawn. This operation is repeated until all the Prizes are drawn out, and the two succeeding Numbers to those drawing the first 7 Prizes, will be entitled to the 28 Approximation Prizes.

If Ticket No. 560 draws the \$50,000 Prize, those Tickets numbered 548, 549, 551, 552, will each be entitled to \$300, and so on according to the above scheme.

The 5,000 Prizes of \$20 will be determined by the last figure of the Number that draws the \$70,000 prize. For example, if the Number drawing the \$70,000 Prize ends with No. 1, then all the Tickets where the number ends in 1 will be entitled to \$20. If the Number ends with No. 2, then all the Tickets where the Number ends in 2 will be entitled to \$20, and so on to 9.
